

EDUCATION

Vellore Institute of Technology

Bhopal,India

Bachelor of Technology in Computer Science and Engineering
(Artificial Intelligence and Machine Learning)

September 2021 - July 2025

CGPA : 8.15

TECHNICAL SKILLS

- Programming Languages:** C++, Java
Web Development Technologies: React.js, Node.js, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS
Integration & APIs: RESTful APIs, Google Books API
State Management: Redux
Databases: MySQL, MongoDB
Cloud & Tools: Google Cloud, Git, GitHub, VS Code, Postman
Certifications: Google Cloud Computing Foundations, Applied Machine Learning, Intro to SQL

EXPERIENCE

MERN Full Stack

August 2023 - November 2023

Ethnus

Remote

- Built a responsive web application using React.js, Javascript technologies, integrating MongoDB for efficient data management.
- Developed RESTful APIs with React.js to optimize data flow.
- Collaborated with designers and backend teams for seamless user experiences.
- Implemented Redux for state management, ensuring scalability and performance.

PROJECTS

AI SaaS Platform | *React.js, Next.js, Google-t-5-flan*

September 2024 onwards

Ai-SaaS/vercel.app

- Contributed to the front-end and the authorization features of an AI SaaS platform, integrating 5+ AI-driven tools including generation capabilities in text, music, code, and video.
- Designed secure user authentication and access control, enhancing portal security for 5+ users.
- Worked in a team to employ Google Flan-T5-large for text generation; optimized front-end performance.

Book Management System | *React.js, Google Books API, JavaScript*

April 2024 - June 2024

github.com/Books-Management

- Developed a React based Book Management web app that integrates with Google Books API, providing access to a catalog of over 2 million books.
- Implemented search functionality using React.js with real-time filtering, allowing users to search and view up to 40 books per page with the "Load More" feature in the react application.
- Built a responsive UI using React.js and Bootstrap, across devices (desktop, mobile, tablet).

Memory Testor | *React.js, JavaScript, CSS*

December 2023 - March 2024

MemoryTestor/vercel.app

- Cultivated an interactive React memory game with 16 Cards /8 Pairs arranged in a 4x4 grid, achieving gameplay accuracy.
- Executed a responsive layout on desktops, tablets, and smartphones with sub-1-second load time.
- Enhanced state management using redux, reducing re-renders and lowering memory usage.
- Tested on multiple platforms, achieving a reduction in error rates for stable and reliable performance.

EXTRACURRICULAR

- 5-Star in C++, HackerRank (2025): Earned a 5-star rating in C++, demonstrating proficiency in coding and logical thinking.
- Solved 350+ coding problems on GeeksforGeeks and LeetCode (2024-2025): building a solid foundation in data structures and algorithms through consistent problem-solving across both platforms.
- Volunteer at Gujarati Club, VIT Bhopal University (2023-2024): Organized an event with 500+ attendees, managing logistics and coordination.
- Vice Head Girl (2020-2021): Supported the Head Girl in planning and executing school events.

ADDITIONAL INFORMATION

- Language Proficiency: English, Hindi
